

The PH.D. Horror Story

Nickolai G Stoilov, With Svetlin S Stratiev

You may think Ph.D. students are harmless if slightly boring... Yet what happens when they are faced with extreme circumstances? How extreme is the difficulty to find jobs after years of study and graduation? Do 19th-century ghosts have anything to do with disappearing girls or media dons? What do physiology students do in their spare time? Are they a match for the ferocity of seasoned criminals?... Set in an Oxford college residence, this farcical comedy begins with the disappearance of rich and beautiful Sylvia amid rumors that the house is haunted. How will it end? What has love got to do with it?
